Certificate of RoHS 2 Conformance

EU Directive 2011/65/EU (RoHS 2) as pertains to the restriction of the use of certain hazardous substances in electrical and electronic equipment entered into force on July 21, 2011. RoHS 2 restricts the same six substances as RoHS 1; lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls, and polybrominated diphenyl ether in manufacturing of certain electrical and electronic equipment sold in the European Union. RoHS 2 introduces new CE marking and declaration of conformity requirements. After January 2013; electronic products bearing the CE Mark must meet the requirements of this new directive.

To the best of our knowledge and based on the information from our suppliers of raw materials and components, all Kord King manufactured products are RoHS2 compliant.

Kord King Products are built to the UL and CSA standards found in our UL File # E76388, E137760 and/or CSA File# LR49017.
